KENTUCKY CROP REPORT.

Condition of Crops and Live Stock
August 1, 1898.

WHEAT.

In Kentucky the month of July has been favorable to threshing, with the exception of the last week in the month when frequent showers put a stop to further progress. Much less than the usual amount has been threshed to date, due to the farmers having their crop in stack and preferring to hold it in that form.

On the subject of free marketing of the crop 18 correspondents say it is being sold as threshed and 124 say it is being held for higher prices.

The average price for No. 2 wheat, August 1, was 65c. In 1897 the price at the same date 66c.

CORN.

The corn crop as a whole presents a very satisfactory condition. Portions of the State embracing the entire counties of Carroll, Gallatin, Trimble, Kenton, Campbell, Grant, and

Bracken, in the central section, with portions of the counties of Muhlenberg, Meade and Breckinridge in the western and Pulaski and Laurel in the eastern section, suffered serious injury from drouth, which was not relieved until July 26-8. Much of the injury will be permanent and the crop of these counties will be short; per centage running as low as 40 in Bracken, 50 in Kenton and 58 in Campbell county.

The condition of the State averages 97, which is an improvement of one point during July. On August 1, 1897, the condition was 98, and on the same date of 1896 was 85.

TOBACCO.

Tobacco has not fared well during July. The wide difference in the condition of the early and late set tobacco was accentuated during the month and now appears that a very little of the late setting can be counted upon to make either a good yield or a good quality of the article. So pronounced are re-

ports on these points that it may be set down that the anticipated large crop will not be realized.

The increase in acreage, which was estimated at 23 per cent., compared with the acreage of 1897, was abnormally small. In the central or Burley district the increase was notably small, 9 per cent. The largest increase, 36 per cent., being reported from the eastern section, where but a small proportion of the crop is grown, greatly strengthens this view of the case.

The crop shows an average condition 88 for the State, which is a falling off of 9 points for July. On August 1, 1897, the condition was 61, and for a corresponding date of 1896, it was 87.

In the western section of the State the crop has suffered from drouth in a few counties and from excess of moisture in others with the result that the condition has fallen from 98, July 1, to 86, August 1.

In the central section dry weather is the principal source of evil. Little or no complaint is made of worms. A few counties report a high average condition, notably Bourbon, 120, Scott, 110, and Fleming, 105, but a report a condition of 80 is an exception rather than the rule. The condition for this section averages 75. On July 1st the condition for the section was 84.

Of the counties of the eastern section very few produce a crop for other than home market. Here the condition is 87.

HEMP.

The condition of the hemp crop compared with an average is 84. On July 1st it was 86. On August 1, 1897, the condition was 79, and on a corresponding date of 1896, the condition was 95.

As was the case last month, there still remains a wide difference in the condition of the crop in various counties where it is produced. Boyle reports a condition of 40, while in Scott county the condition is 120.

LIVE STOCK.

Pastures are good with the exception of a portion of the central section, where it has been too dry; however, the condition averages 99. In the western section the condition compared with average is 101. Live stock are thrifty as a rule. The only disease noted outside a normal number of reports of hog cholera is "pink eye" among cattle in Carlisle county.

Lucas Moore, Com.

REASONS

Why the Black Diamond Railway System Can and Will be Built.

From The Sharpsburg World.

I. Because it goes through water gaps in the Cumberland mountains, Smoky mountains and Blue Ridge mountains, and at no point on the entire system will the maximum grade be to exceed 66 feet to the mile.

II. It will be the shortest and most practical line from Duluth and Chicago to the South Atlantic thereby securing its share of traffic for Cuba, Central American and South American States, not saying anything about what's in store for it when the Nicaraguan canal is built.

III. It will have the three largest coal fields in the world to draw upon, viz: South-Eastern Ohio, with its Waterloo coal and Meigs creek coals covering fully 1,000 square miles; the South-Western Indiana, with fully 2,500 square miles of coal area; the Jellico and Big creek coals of East Tennessee, covering fully 1,000 square miles, and the Eastern Kentucky coal fields, some 100 miles in length and fully 75 miles in width, but for the Black Diamond will say 2,000 square miles—in all 8,500 square miles of coal territory—enough coal to supply the whole of North and South America with coal for 1,000 years to come.

IV. It will pass through the largest deposit of slate in the world. Forty miles south of Knoxville, Tenn., at Chilhowee, Blount county, Tenn., is enough slate to supply the whole world for over 200 years to come.

V. It will pass through the largest deposit of marble in the United States, striking it in Knox county, Tenn., in which Knoxville is the county seat. This deposit is 50 miles wide and 100 miles long, of all colors and shades except pure white.

VI. It will pass through miles after miles of iron ores among them being the same iron found at Cranberry, N. C., which is said to be equal to the Swedish iron when manufactured.

VII. It will pass through the heart of the cotton fields of South Carolina.

VIII. It will touch the great bone phosphates of the bays and inlets of South Carolina at Port Royal.

IX. It will pass through fully two-thirds of all hardwood standing today in the United States, which insures for itself ties and an immense lumber traffic for fully 100 years to come.

X. It will pass through great

bodies of zinc ores.

XI. It will pass through immense beds of manganese ores, which is a necessity in the manufacture of steel, needed at Chicago, Wheeling, Pittsburg, and where steel is manufactured.

XII. It will pass through mountains of Kaolin—nearly pure—used in the manufacture of chinaware, needed at Wheeling and Pittsburg and wherever there are potteries.

XIII. It will pass through the finest tan bark district in the world, thus ensuring the traffic of the hides of Central and South America that must go into this district to be tanned.

XIV. It will pass through a lead of the famous Ducktown, Tenn., copper district.

XV. It will pass through many deposits in several States of glass rock, used and a necessity in the manufacture of glass, needed wherever a glass plant is in operation.

XVI. It will pass along and contiguous to fully 1,000 water power facilities, which, in time, will play no small part in manufacturing, especially in the "Southland," not now available for want of adequate railway transportation.

For the above sixteen good and sufficient reasons, and with the fact that the people are almost to a unit behind the Black Diamond, pledged by all honor and interest to give it all their patronage, the Black Diamond franchises, every one of them will be built upon inside of the next ten years.

Keep steadily in view this one fact: That there never was a railroad projected, exceeding 50 miles in length, but what, if the franchise was perfected and kept alive, the capitalists have been attracted to it and the same built.

Mark the prophecy of

Albert E. Boone.

Zanesville, Ohio, July 25, 1898.

P. S. My prophecy of ten years refers to these franchises that are not now ready for construction. It has taken the best part of four years and fully \$100,000 to get the following in shape for construction covering 671 miles, viz: Greenfield, Ind. to Knoxville, Tenn. 861 miles; Vincennes, Ind. to Jeffersonville, Ind. 125 miles; Cyathiana, Ky. to Columbus, O. 165 miles.

As the Black Diamond System will not stop until it reaches Pittsburg, Wheeling, Chicago and the South Atlantic, an additional mileage in excess of the 671 of 2,105 miles; it will take fully three

A number of banks throughout the State are taking steps to reduce their capital stock on account of the tax put upon them.

Capt. W. T. Havens, of Mt. Sterling, has been appointed Chief Deputy Clerk at the hands of Appellate Clerk S. J. Shackelford.

Lewis Wilson, John D. Winn and David Pryse have been selected as election commissioners for this county. This is a good selection and, doubtless, will be satisfactory to every voter in the county.

The man who thinks a newspaper will suspend because he quits taking it is not unlike the individual who took a bucket of water from the river and then looked along the shore to see how much he had lowered the stream.

A special from Richmond of Tuesday's Cincinnati Enquirer leads us to believe the political bee is again buzzing around the ear of our fellow citizen, ex-Judge Chenault. Read it:

The friends of ex-County Judge John C. Chenault are urging him to make the race for the state senate in this (the twentieth) senatorial district, composed of the counties of Madison, Estill, Powell and Lee and he is seriously considering the matter. —Richmond Pantagraph.

In the very midst of an exciting war the United States issued \$200,000,000 of bonds at the low rate of 3 per cent. They were all taken up at par by the people without the intervention of any syndicate or any bank. And so great is the country's credit that with the war still on these bonds have risen to 104 even before their issue. That is to say, investors are so eager to get them that they are willing to surren-

der a year and a quarter's interest for that purpose. Was there ever such national credit in the world as ours.—New York World.

"America isolated? No! Where is there a land which her influence has not reached? Her merchants trade in every market. Her missionaries labor under every flag. Her ideas have touched and thrilled the hearts of men under every sun. She has done more for freedom and human happiness and peace within the last hundred years than any other nation in the world."

"This is my ambition for America—that we may found our empire upon love; that we may spend our money on churches and schools, libraries and hospitals; that we may build ourselves in righteousness, so that wherever an American citizen may go upon the earth he will be honored and loved, not because of our battleships, but because he represents a nation which has nothing but justice and kindness for all races of men."—Exchange.

A patriotic Meade county father has named a newly born son named Clarence Sampson Dewey Hobson Wheeler Miles Schley Shafter Riley Babbett Grinstead. It is hoped the little fellow will be blessed with a long, useful and prosperous life.

An apple tree that has stood on a farm near Danville for more than 100 years is 9 feet, 9 inches in circumference, and is bearing fruit.

E. P. Claybrook, of Hutchison, Bourbon county, lost 650 bushels of wheat by fire late Tuesday afternoon. He was threshing his crop of wheat and the straw stack caught fire and burned completely. The Bethlehem Thresher Company lost their straw carrier in the fire. Claybrook's loss was upward of \$300 and the thresher company's loss was \$400.

Farmer Bill Good.
"What's all them soldiers marchin' round the town fer?" asked Farmer Bill Good, who has not been in the city in six months and refuses to take a paper, because he doesn't believe what they say.

"They're going to whip Spain," replied the polite policeman.

"Spain? Wharabouts is that in the jography?"

"Over near Cuba some place."

"Yes. I recollect Cuba on the map. What kicked up the fuss?"

"They sunk the Maine."

"Out whar Jim Blaine lives?"

"No. The battleship Maine—they put a mine under it."

An' did the mine cave in?"

"No, no, no; they blew it up."

"One o' them durned missed shots, eh?"

"Oh, go on; you're too green. Go and subscribe for some paper and get your neighbor to read it to you."

The old man plodded along on his way, muttering that he never would take a paper, for he knew more now than all the papers in christendom.—Exchange.

Crittenden county farmers are raising a great quantity of stock peas. They are easily raised and superior stock feed.

An Old Adage Reads:

"There is a place for everything" Now for everything to be in its place. The Louisville Dispatch should be in the home of every Democrat in the South. The Dispatch is the people's paper, owned by the people and read by the people. The Dispatch is the only Democratic paper published in Louisville. It stands squarely on the Chicago platform. It is not only in a flourishing condition after eighteen months battling against adverse circumstances, but is to-day the best medium in the South. And its motto—If you see it in the Dispatch it's so. If it's so it is always in the Dispatch, has been fully verified during the American-Spanish war, during which the superiority of its news service has been daily apparent.

The Dispatch news service is furnished by the New York Sun, the Chicago Inter-Ocean, the Northern Press Association and the Leslie Syndicate with an active salaried correspondent in every important city in the world, besides its own staff of over 300 correspondents in Kentucky, Tennessee and Indiana. Get the Dispatch, it gives the news, and tells the truth about it.

The Dispatch is Kentucky's greatest paper. You should be a reader. For the next few weeks we will club with the Weekly Dispatch at the extremely low price of 75 cts.

CORRESPONDENCE.

Log Lick.
We are having plenty of rain and crops are nice.

The creek did quite a lot of damage to corn and tobacco last week.

Mrs. Bill Stone was called to the bed-side of her father, A. King, who is quite ill at his home on Hog Creek.

Henry Quisenberry, of Schollsville, was in our neighborhood Wednesday hunting cattle and attended services at Log Lick.

The protracted meeting at Log Lick is in fine progress with Rev. Combs and Mareum doing the preaching. We have had several visiting preachers—Rev. Lowry, of Winchester, Rev. James Howard, of Estill county, Rev. Ragland, of Red Bridge and Rev. G. W. Wise, of Furnace. One addition up to date.

OUR SICK.
Aunt Nellie Lowry, who has been sick for some time, is improving.

J. S. Vivian has quite a time getting over his spell of sickness. He is no better at this writing.

Calvin Chism is improving from a severe attack of bilious colic. Drs. Elkin and Combs attending.

Vaughn's Mill.

Miss Lelia Harrison, of Levee, is visiting friends here.

Miss Mary B. Bush, of Stanton, is visiting relatives here.

Miss Bettie Jackson is visiting relatives in Clark county.

Morgan McKinney, of Wade's Mill, is visiting relatives here.

Robert McKinney, of Mt. Sterling, was here last week on business.

Miss Maria Bush and brother

were the guests of Miss Lula Vaughn Sunday.

Miss Mattie McKinney entertained a number of young people at her home Sunday.

Miss Mary Bush, who has been visiting relatives at Wade's Mill and Lexington, returned Sunday.

Rev. S. M. Carrler, assisted by Rev. Todd, of Richmond, is conducting a protracted meeting at the Methodist church.

Iron Mound.

Thomas Berry, of Merritt, was in this neighborhood buying hogs the first of this week.

The recent tide destroyed all the corn on Noland's creek bottoms and all on Red river from Viena to the mouth.

J. S. and M. L. Thomas, Mike alias Candy Wills and John Adams passed through our little village en-route to Irvine court last Sunday.

Ye correspondent while gone to Winchester last week got water bound and could not get home in time to send in the news from this place.

Capt. J. W. Webb, formerly of this place, but now of Clark county, was in this neighborhood with his many friends the first of the week.

Wm. Stone and F. E. Tipton, Iron Mound's enterprising merchant and unretiring wagoner, went to Winchester the first of the week with produce and brought back a load of goods.

The teachers of this section returned from the Institute very much enlightened on school management under the able instructions of Prof. Throop, and the young hopefuls are being kept strict at their studies.

Some unknown person who was too lazy to raise or work for them or too modest to go in day time and ask for them, visited the melon patch of John W. Freeman and forcibly undertook to take one, when there was a report of a shot gun, a melon dropped and a thief disappeared. We suppose the melon was dropped for one was found with 13 shot holes in it and we know the thief disappeared for he has not yet been found and certainly was seen and we guess is now some where trying to realize whether he ate watermelon or shot and powder. The Editor's Wedding.
This is how the editor of The Humboldt, (Kan.) Herald recently announced his marriage: "Mr. F. A. McCarthy (that's us) and Miss Nannie Fisher (that's more of us), were united in marriage Wednesday July 27, at 10 a. m. The ceremony was followed by a sumptuous repast, which we have only a faint recollection of. Some way, events seemed to crowd on each other then. And God has given us the best earthly thing within his gift. The joy in a sweet wife is too great to be described—too sacred to be spoken of."

Albert Jackson, of Adair
county, is a boss peach grower.
He has exhibited a peach grown
on one of his trees of a free
stone variety measuring ten
inches in circumference.

There is perhaps no better
guesser of the weight of stock in
this community than W. E.
Heflin, and that it is a source of
revenue to Mr. Heflin is quite
frequently demonstrated in his
trades.

Rev. W. H. Childers, former-
ly of this county, but now of
Pineville, is holding a meeting
with the Methodist church at
Bybeetown, Madison county. For
a while here Rev. Childers was
reported dead.

DIED.

Ellhu Sparks, an aged war
veteran, died at his home in
Irvine one day last week.

Silas Witt, aged 95 years,
and said to be the oldest man
in the county, died at his home
near Irvine Tuesday.

Aunt Betsy Barnett, who for
some time has been at the point
of death, breathed her last Sun-
day evening at 4 o'clock, aged
79 years. She was buried at Sa-
lem grave-yard Monday, her fu-
neral being preached by Eld. B.
Frank Wright at the grave-yard
before burial, where a large crowd
assembled to pay their last re-
spects to this good old lady.

Uncle Billy Martin, and old
and respected citizen of Powell
count, who for a number of
years has lived near the mouth
of Lulbegrud creek, died very
suddenly at his home Monday
morning. He was buried at
the family grave yard near the
house. By request of his, his
funeral will be preached one
year from the date of his death.

A Quick Reply.

That quick wit is not confined to cities was proved the other day by a young woman who was rambling along one of our roads.

She was dressed smartly, and when she met a small, bare-legged urchin carrying a bird's nest with eggs in it, she did not hesitate to stop him and said: "You are a wicked boy. How could rob that bird's nest? No doubt its poor mother is now grieving for the loss of her eggs."

"Oh, she don't care," said the boy, edging away; "She's on your hat."—Ex.

years to prepare same ready for construction.

From Knoxville, Tenn., to Anderson, S. C., a distance of 222 miles, there has been expended another \$100,000 in surveying, (being the mountain district). This division could be got ready for construction in a few months, making in all, 913 miles out of the 2,690 contemplated—ready to speak for construction—only waiting the word of the capitalists to "go ahead," which I confidently expect to be given inside of three months after the war with Spain is practically settled.

RELIABILITY

Is a quality some newspapers have lost sight of in these days of "Yellow Journalism." They care little for the truth and a great deal for temporary sensation.

It is not so with the Dispatch. The success of the Dispatch rests upon its reliability. It prints the news—all the news—and tells the truth about it.

ITS WAR NEWS SERVICE.

can not be excelled. It is gathered by forty-two war correspondents and eight fast dispatch boats at the seat of war, and a salaried correspondent in every important city in the world.

The most critical period of the war will be during peace negotiations. Get the paper that tells the truth.

OUR MOTTO: If you see it in the Dispatch it's so, and if it's so it is always in the Dispatch.

The Dispatch news service is now furnished by the New York Sun, the Chicago Inter-Ocean, The Northern Press Association, The Leslie Syndicate and a staff of correspondents in Kentucky, Tennessee and Indiana second to none on a Southern news-club with the Weekly Louisville Dispatch; both papers one year for the low sum of 75 cents.

All orders at the above rate must be sent to this office.
